HIGH-PERFORMANCE MIXTURES

## BEYERS OLYMPIA MIXTURES

HIGH-PERFORMANCE MIXTURES

The **OLYMPIA** mixtures are characterized, like our **PREMIUM** mixtures, by the use of **top quality small grains and seeds**, which guarantee **maximum absorption** of the mixture.

They originally have been developed especially for the German breeding and racing season because these are significantly different from Belgian or Dutch. All **OLYMPIA** mixtures are tailored to the pigeons' needs during the **breeding season** and a **specific part** during racing season (Zucht & Reise, Breed & Wean, Breed & Youngsters, Breed & Racing,...). The first **OLYMPIA** mixtures were launched during the OLYMPIADE at UTRECHT in 1995. Meanwhile, with these so-called German mixtures, many successes were also achieved by top-level fanciers in several other countries.

20 KG

### BEYERS OLYMPIA 53 — BREEDING & MOULTING — 20 KG

NEW

- Top quality mixture for breeding and moulting, rich in 26 different ingredients containing small Cribbs maize, maize Cribbs and Merano maize.
- The presence of a variety of 20% legumes (small green peas, small yellow peas, dunpeas, vetches, maple peas and winter peas) and the use of alternative highly usable protein sources (toasted soya beans, mung beans, hempseed and lentils) ensure the right balance of proteins that your pigeons need during the breeding and moulting period.
- The mixture contains a high content of oil retaining seeds for a shiny and soft plumage.
- The ideal balance between all of these nutrients and sufficient crude fibre so the pigeons do not become too fat and do not moult or lay properly.

**Ingredients:** wheat, maize small Cribbs, sorghum red, dari, maize Cribbs, small green peas, small yellow peas, barley, toasted soya beans, maize merano, safflower seed, paddy rice, dun peas, vetches, linseed, mung beans, maple peas, oats peeled, yellow millet, hempseed, winter peas, sunflower seed striped, rape seed black, lentils, rape seed, sunflower seed peeled.

Carbohydrates	<b>55,70 %</b>
