THE POWER OF ENZYMES

BEYERS ENZYMIX MODERN SYSTEM MIXTURES

THE POWER OF ENZYMES

BEYERS offers a **unique range of mixtures**, to which **enzymes** have been added, with the ENZYMIX mixtures. These enzymes are **100% natural and completely tasteless and odourless**. The enzymes are not activated until after the feed has been ingested as a result of circumstances in the gullet and ensure the grains' cell walls are broken down more quickly. This allows the pigeons to absorb the nutrients more quickly and more efficiently. The result of this is threefold: the pigeon gets considerably **more energy from the feed**, the **digestibility** from protein and crude fibre is considerably **higher** than results in traditional mixtures and better digestion results into noticeably **drier and less droppings**.

The MODERN SYSTEM is based on three principles: top quality grains, the addition of liquid enzymes and easy to use. All this makes the MODERN SYSTEM an ideal system for the modern pigeon sport, where the burden on the pigeons is continually becoming more intensive, the pigeons are played further and frequently with shorter rest periods. The names of the ENZYMIX MODERN SYSTEM mixtures tell you how to use them: consecutively **breeding, recuperation, build-up, energy, super depurative, sport diet, condition seed and moulting methionine**.

BEYERS ENZYMIX 7/40 MS BREEDING – 20KG

- High-value breeding mixture, which does not require many additives during the breeding period.
- High crude protein content (16.5%), hence, ideal for the rearing of the young and less loss of condition in the breeding pigeons.

Ingredients: Small green peas – small yellow peas – white wheat – popcorn maize – small cribbs maize – dari – vetches – safflower – maple peas – hemp seed – paddy rice – toasted soy

Carbohydrates	52,26%
Crude protein	16,58%
Crude fat	5,63%
Crude fibre	6,63%
Crude ash	2,50%
