HIGH-PERFORMANCE MIXTURES

## BEYERS OLYMPIA MIXTURES

### HIGH-PERFORMANCE MIXTURES

The OLYMPIA mixtures are characterized, like our PREMIUM mixtures, by the use of **top quality small grains and seeds**, which guarantee **maximum absorption** of the mixture. They originally have been developed especially for the German breeding and racing season because these are significantly different from Belgian or Dutch. All OLYMPIA mixtures are tailored to the pigeons' needs during the breeding season and a specific part during racing season (Zucht & Reise, Breed & Wean, Breed & Youngsters, Breed & Racing,..). The first OLYMPIA mixtures were launched during the OLYMPIADE at UTRECHT in 1995. Meanwhile, with these so-called German mixtures, many successes were also achieved by top-level fanciers in several other countries.

### BEYERS OLYMPIA 51 - BREEDING & RACING FIRST CLASS - 20kg

- Unique breeding and racing mixture without peas, maize or red sorghum..
- By using alternative protein sources (vetches, toasted soya beans, lentils and katjang idjoe) this mixture offers a unique amino acid pattern. Using extra white dari instead of red sorghum considerably increases the nutritional value due to the beneficial amino acid pattern of the extra white dari.
- In practice, we also see very good breeding results when using this mixture combined with traditional breeding mixtures such as PREMIUM SUPER BREEDING or OLYMPIA 49-BREEDING & YOUNGSTERS (with small maize). The best ratio seems to be 2/3 traditional and 1/3 OLYMPIA 51- BREEDING & RACING FIRST CLASS.

**Ingredients:** Dari white – white wheat – vetches – cardi – peeled oats – hempseed – toasted soya – lentils – Katjang Idjoe – white millet – paddy rice
